

第3课时 两位数加一位数(进位)、整十数[教材 P<sub>65</sub>]

# 开心! 一练

## 一 填一填, 算一算。

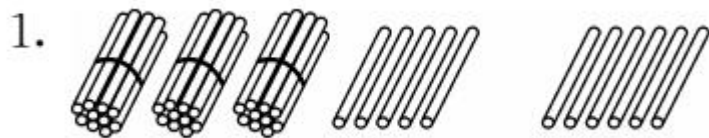

$$47 + 6 = \square$$

Diagram showing the decomposition of 47 into 40 and 7. A line goes from the 7 to a box containing '3'. Another line goes from the 40 to a box. A third line goes from the '3' to a box. The equation is  $47 + 6 = \square$ .

$$47 + 6 = \square$$

Diagram showing the decomposition of 47 into 40 and 7. A line goes from the 7 to a box. Another line goes from the 40 to a box. A third line goes from the box to a box. The equation is  $47 + 6 = \square$ .

## 二 先圈一圈, 再计算。

$$35 + 6 = \square$$

先算  $\square + \square = \square$

再算  $\square + \square = \square$

$$27 + 5 = \square$$

先算  $\square + \square = \square$

再算  $\square + \square = \square$

三

$7+3=$

$7+23=$

$4+8=$

$34+8=$

$9+6=$

$9+46=$

$8+5=$

$58+5=$

## 快乐!提升

四 看谁算得对。

$54+8=$

$4+26=$

$65+7=$

$3+79=$

$9+42=$

$46+8=$

$6+27=$

$6+35=$

五

我采到24个蘑菇。

我采到8个蘑菇。

两只小兔一共采到多少个蘑菇?

$\square \bigcirc \square = \square (\quad)$
