I hope China will build many
in the future.

拓展提能

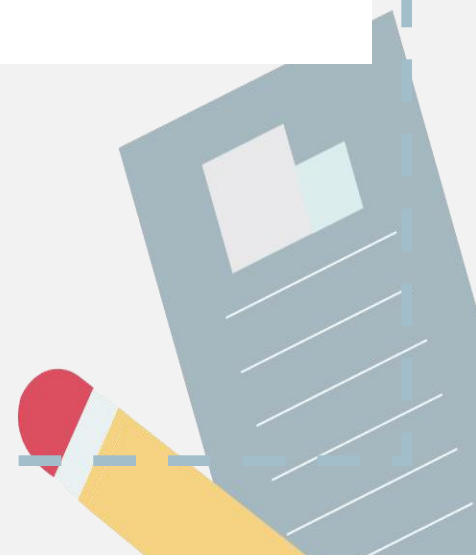

四、阅读理解。

What will man be like in the future? Of course, he will be different from what he is today, and life in the future will be different from life today.

There are more computers in our life, and people will work fewer hours. They will have more free time to do sports, watch TV and travel. Robots will do dangerous and hard work. Because of these, many people will have no jobs to do. Because of the modern

machines, we begin to use arms and legs less. People become weaker. Because we use computers, our fingers(手指) will become more sensitive(敏感的). I think modern machines are good for people. At the same time they are bad for us, too.

根据短文内容,判断下列句子正(T)误(F)。

- () 1. In the future, man will be the same as today.
- () 2. There are more computers in our life, so people will work fewer hours.
- () 3. Because of robots, people will have more jobs to do.
- () 4. In the future, we will use arms and legs less and less.
- () 5. Modern machines are good for people in all ways.
