拓展提能

四、根据短文内容,选择方框中的单词并用其适当形式填空。(有两项多余)

*work, but, even, like, play, than, never,
human, become, that, brain, future*

Now we use robots here and there. They
1. an important role in our lives. They can
always do the same work and they 2. feel
tired or bored. Sometimes they do some dangerous

work, 3. exploring(探索) outer space.

Robots don't have the same brains as 4.
 , and they don't have any senses(感知), ei-
ther. Then how do they 5. ? Well, they
have computers inside the bodies to work as our
6. .

Robots are 7. smarter. In the
8. they may be just like the ones in mov-
ies. They can speak, walk and 9. think.
However, will they become cleverer 10. us?
The answer is "No". We always have new ideas, but
they don't.
