## 二、句子还原。(有两项多余)

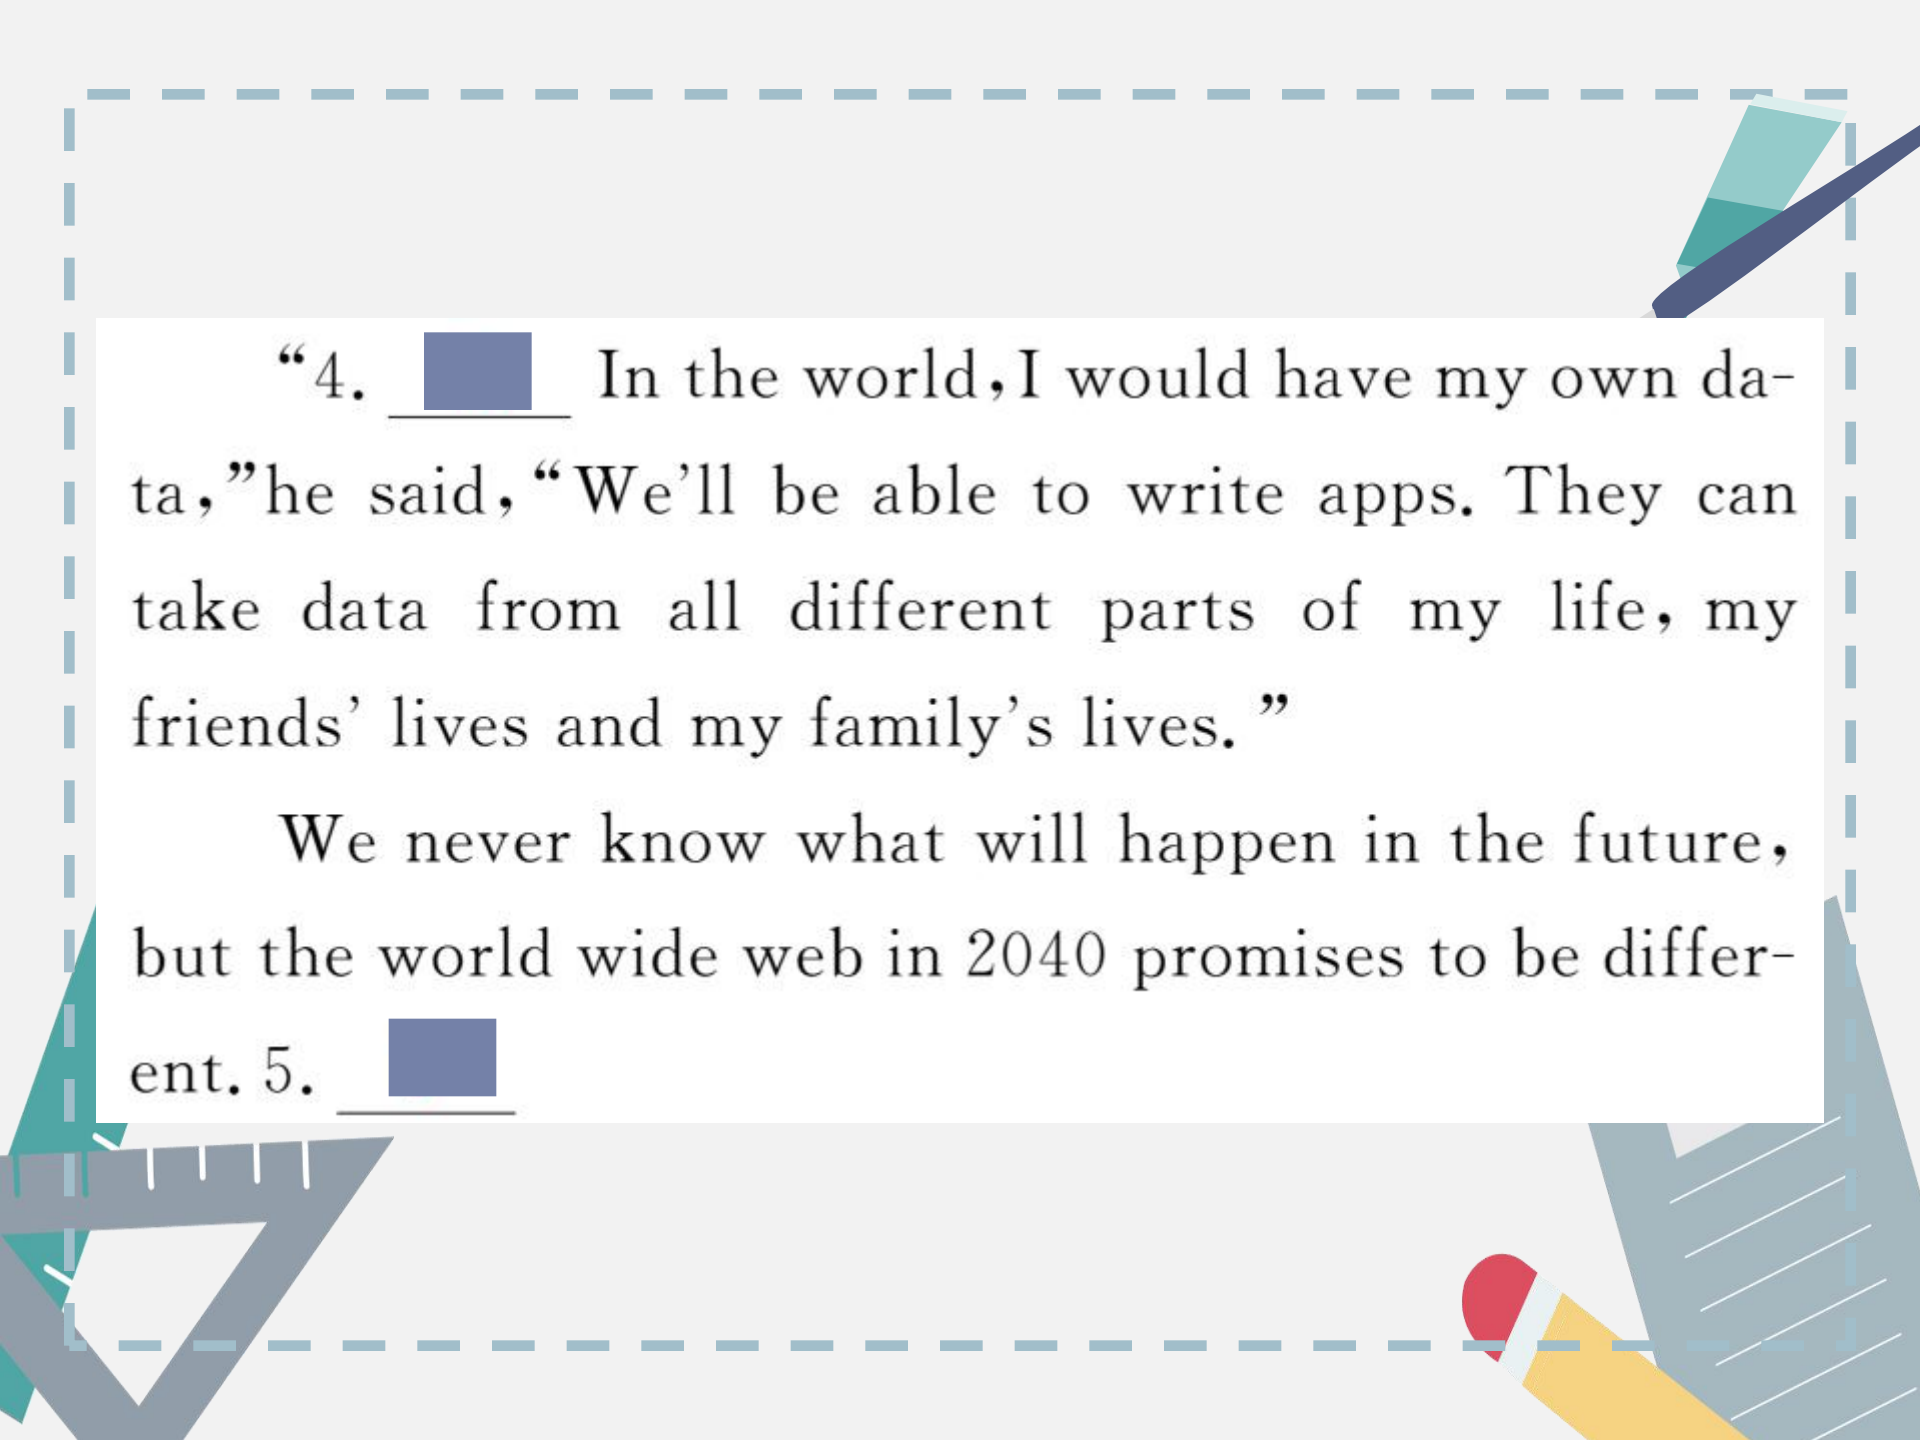

It is a summer morning in 2040. 1.          All the things you are about to do appear according to the data streams(数据流) flying across the Internet.

Cars and buses adjust(调节) their numbers and ways according to the data streams, too. Buying your children wonderful birthday gifts is easy and quick in 2040. 2.          And it will be just what your children

want. Best of all, doctors will have an easy way to check your medical history because of the data.

3.        In the future, data will decide most of things. This idea is from a person and he created the web. Last month in London, he said that one day we might also have much greater ownership(所有物) over the data.

“4.          In the world, I would have my own data,” he said, “We’ll be able to write apps. They can take data from all different parts of my life, my friends’ lives and my family’s lives.”

We never know what will happen in the future, but the world wide web in 2040 promises to be different. 5.

A. *It sounds good ,doesn't it?*

B. *I would like us to build a world.*

C. *The Internet is all around you.*

D. *It is impossible for you to carry it every-  
where.*

E. *The space trip may take about a week.*

F. *We can be sure of one thing :we will do our  
best to make it come true.*

G. *It is because your data will quickly tell you  
the best shopping service.*
